

Smart Pharmacy Management Software

All in one place

Increase your sales

50k+
Medicines Database ManageManage
customers, staff,
and suppliers

Overview

Smart Pharmacy Management

Dashboard sales stats

Track today's sales, this month's sales, cash vs. credit sales, and monitor low stock & out-of-stock medicines instantly.

Customer Management

Handle both cash and credit customers with outstanding balance reports. Control business expenses including rent, bills, and supplier payments with clear breakdowns of fixed and variable costs."

Expense Management

Track today's sales, this month's sales, cash vs. credit sales, and monitor low stock & out-of-stock medicines instantly.

Software Analytics

Get complete software analytics in one place — sales trends, profit vs. expense graphs, customer credit recovery, and staff attendance analytics. Make data-driven decisions with confidence.

Sales Report & Stats

Generate detailed reports for every medicine: total stock value, expiring soon, out-of-stock, purchase history, and supplier records.

Point of Sales

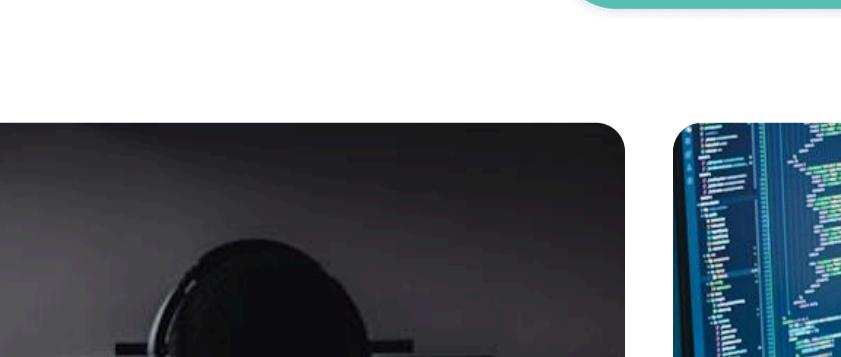

View the latest transactions, customer purchases, and medicines that are close to expiry. With automatic alerts, you'll never miss a critical update.

Point of Sale (POS)
